

Supplement Example Guide Weeks 1-4

Refer to respective bottles for daily supplement serving dosages.

We recommend you start your day with a 16 ounce glass of water or our Early Morning Alkalizing Drink.

We recommend you take a biofilm disrupter in the morning alone with only electrolytes between breakfast and lunch.

We recommend you take any digestive support supplements right before meals (Ketozyme, Digestive Enzymes)

We recommend you take your antimicrobials with meals.

We recommend you take your probiotics in the afternoon separate from antimicrobials.

PLEASE WAIT until Week 5 to start taking Perfect Pass Prebiotic PHGG (Partially Hydrolyzed Guar Gum) with your probiotics.

We recommend you drink 3/4-1 gallon per day.

- Biofilm Disrupter
- Electrolytes

Take w/ Lunch:

- Digestive Aids (Ketozyme, Digestive Enzymes)
- Antimicrobials (IB Guard, Garlic Extract ...)

Afternoon:

(Take w/ another Chocolate Breakfast Shake (if hungry))

- Electrolytes
- Probiotics
- **PLEASE WAIT until Week 5** to start taking Perfect Pass Prebiotic PHGG (Partially Hydrolyzed Guar Gum) with your probiotics.

Dinner:

- Digestive Aids (Ketozyme, Digestive Enzymes)
- Antimicrobials (EcoPhage ...)

!!! No eating 3 hours before bed !!!

Bentonite Clay (Scroll Down)

Scroll Down

Bentonite Clay

Before Bed: Mix 1/2 - 1 teaspoon of Bentonite Clay in about 4 ounces of water, mix vigorously with a fork (there will still be some clumps) and drink immediately! This pulls pathogenic bacterial die off out of your body safely and smoothly.

Research shows taking probiotics separate from antimicrobials may be best as the beneficial bacteria in the probiotics could be killed off by the antibacterial properties from the herbs, garlic, and peppermint essential oil etc in the recommended antibacterials etc.
